

No man ever steps in the same river twice, for it's not the same river and he's not the same man.

(Heraklit)

Dear reader,

On the leave of another one, 2009 year this time, it is our honor and pleasure to offer Vol. 3 Issue 2 of our and yours journal. This time too, with a pride, we can present some news, and among them, first of all inclusion of our journal in some new (behind existing) top citation databases, like CAB Abstracts, Global Health, Leisure Recreation and Tourism, etc., which is enormous recognition for all of us. We will do best we can to acquit such honor. In so doing, of course, we have exceptional help and support of our cooperatives, and especially author's contribution. This time we can offer to you some especially nice realizations in methodological orientation like bravura review of success equation estimation in team sports, kinematics analysis of sports walking and unusual analysis of ski-jumping. Furthermore, anthropologically oriented articles discuss about adult women life-style and some dimensions of inclusive teaching. Educational aspect leads us into physical education class's optimization, characteristics of explosive strength measures for children and some values of belly dance with secondary school female pupils. Training technology is presented with at most articles that address ideas like morphological comparison of cadet and senior basketball players, accuracy in basketball, indicators of some athletics events, constitutional differences of top-level sportsman in sport games, estimation of predictive value of mawashi geri and differences identification of successful and unsuccessful basketball teams on Olympic tournament. Finally, in sports management domain you can find nice articles about models of business and sports success in sport games, argumentative discussion about violence in sport and intriguing review of possible sport events in future. We hope that such 'collection' can satisfy your aesthetic and scientific curiosity.

Dragi čitatelju,

Na odlasku još jedne, ovaj put 2009. godine, čast nam je i zadovoljstvo ponuditi Vol. 3. Issue 2. našeg i vašeg časopisa. I ovog puta vam možemo s ponosom predstaviti neke novosti, a to je prije svega uvrštavanje časopisa i u još neke (osim postojećih) vrhunske citatne baze poput CAB Abstracts, Global Health, Leisure Recreation and Tourism, i sl., što nam je svima zaista izuzetno priznanje. Učinit ćemo najbolje što možemo da tu čast i opravdamo. Pri tome, naravno, imamo izuzetnu pomoć i potporu naših suradnika, a pogotovo autora priloga. Ovaj put nudimo vam izuzetno lijepa ostvarenja metodološke orijentacije poput bravuroznog pregleda procjene jednadžbe uspjeha u momčadskim sportovima, kinematičke analize sportskog hodanja i neuobičajene analize skijaških skakonica. Isto tako, antropološki orijentirani prilozi govore o načinu života odraslih žena i nekim dimenzijama inkluzivne nastave. Edukacijski aspekt upućuje nas u priloge o optimizaciji nastave tjelesne i zdravstvene kulture, metrijskim karakteristikama testova eksplozivne snage za djecu i nekim vrijednostima trbušnog plesa u nastavi. Trenažna tehnologija zastupljena je s najviše članaka koji se bave usporedbom košarkaša kadeta i seniora, preciznošću u košarci, pokazateljima nekih atletskih disciplina, morfološkim razlikama vrhunskih sportaša u sportskim igrama, procjenom prediktivne vrijednosti udarca mawashi geri i identifikacijom razlika uspješnih i neuspješnih košarkaških ekipa na Olimpijskim igrama. Konačno, u prostoru sportskog menadžmenta možete pronaći vrijedne radove o modelima poslovnog i sportskog uspjeha u sportskim igrama, argumentiranu raspravu o nasilju u sportu i intrigantni pregled mogućih događaja u sportu budućnosti. Nadamo se da ova 'kolekcija' može zadovoljiti vaše istančane i znanstvene interese.
